Subject: RE: NOTICE: BASIC ASSESSMENT FOR PROPOSED MINING OF QUARRY 4: SAPS TACTICAL ACADEMY MOLOTO
Date: Saturday, 04 July 2020 20:01:00

Dear Colonel,

Thank you very much for the minutes below.

Just one correction, I am from GA Environment. We are independent Environmental Assessment Practitioners that have been appointed by KBK Engineers on behalf of SANRAL.

I will pass on comments provided by the SAPS during our meeting to KBK Engineers.

Kind Regards

 Kirthi Peramaul
Senior Environmental Assessment Practitioner

[REDACTED] 4: SAPS TACTICAL ACADEMY MOLOTO

Good afternoon General and protocol observed.

1. This mail is for information on the meeting that was held at SAPS Tactical academy Moloto 2020-07-03 at 10:00
2. The meeting concern was about the basic assessment of the proposed quarry 4 associated with the upgrade of the National Road R 573 (Moloto Road) Gauteng Province.
3. The meeting was held at Moloto academy with the following role-players:
 - a. SANRAL Senior Environmental assessment Practitioner Me. Kirthi Peramaul
 - b. Lt. Colonel Serakwana of HRD Facility Management
 - c. Lt. Colonel Rademeyer, Lt. Colonel Matjeke and W/O M Kruger of Moloto Academy.
4. The meeting and inspection of Quarry 4 is for the purpose of upgrading of the Moloto Road.
5. The objective of visit and assessment of site is to obtain the Environmental Authorisation from the Component Authority Department Mineral Resources and Energy before activities could commence.
6. The visit aims to Identify and assess the environmental impact associated with the development and also provide alternatives to the development.

7. Notice was handed to SAPS Tactical Academy for the Public Participation Process of attended project and to notify the public of activities.

8. It is also mentioned that Engineers still need to visit Quarry 4 and meeting will be setup as soon as possible.

9. **Concerns:**

- a. During the meeting and visit of set Quarry 4, it seems that the Identified site where drilling took place for possible Quarry 4 and the proposed site indicated on map for project is not corresponding.
- b. The route to be used during the project is: from Moloto Road to Quarry 4 passes right next to the existing Administration building, safes, stores, fleet office, trainer accommodation, facility management office and range master's office.
- c. The main road leading up to the Quarry to be used will be used by learners, trainers and personnel during the day.
- d. Main road is used by trainees for different courses and members need to walk great distances during TRT, NIU Preparation Phases where trucks will be driving.
- e. Security Gate (Main Gate) will be used for all vehicle travel for heavy vehicle and day to day use by current contractors and the SAPS.
- f. Handling of security, vehicles and use of main gate of the academy, current structure and gate is to small / narrow for vehicle flow.
- g. Blasting that will take place during this project will probably damage the current borehole in use at the academy
- h. Borehole to be used for Quarry 4 is close to project site, but need to be equipped to function for the project.
- i. The borehole close to the site produces **(WE THINK) +-4000 litre** of water per hour but is not confirmed and the possible collapsing of borehole is possible during blasting.
- j. Shooting Range Complex 2 is in line with proposed project site.

10. **During the meeting and site visit some proposals were put on the table concerning road use in the academy**

10.1. Route to be changed to South Eastern side of the academy.

10.2. Project to get own Gate and security during project.

10.3. Confirming with Engineers and project Managers the correct site of Quarry 4.

10.4. Route traveling in Academy to be changed to assist and protect the Ecology and training members.

11. As per information it was also indicated that there will be meeting scheduled with the SAPS and the Project.

12. For further information and clarity on the way forward, SANRAL Senior Environmental Assessment Practitioner Me. Kirthi Peramaul can be contacted.

13. Kind regards
