Dear Sonja,

Thank you for providing GA Environment with your comments.

GA Environment acknowledges your comments made regarding the proposed Quarries. Your comments provided have been captured in the Final Scoping Report for the consideration of DMRE as the Competent Authority. The environmental elements, as well as damage to your property has been addressed in your submission dated 17th August 2020. A response was provided in the Draft Scoping Report.

As provided in your previous submission, GA Environment is unable to comment on the internal process of the deed's office. Such comment falls out of the Scope of Work for the proposed Quarries.

GA Environment acknowledges your comment provided. You have an opportunity to appeal the Decision from the DMRE in line with the National Appeal Regulations 2014 (as amended) as soon as the Decision is Issued by DMRE.

Kind Regards

Subject: Re: PROPOSED MINING OF QUARRY 6A ASSOCIATED WITH THE UPGRADE OF NATIONAL ROAD R573 (MOLOTO ROAD)

Dear Kirthi,

Unfortunately I am not for the proposed development, and can not give my consent. There are too many negative elements such as (dust, health, noise, traffic) which will effect the value of my property and the health of myself and my farm animals. I am also not willing to take any responsibility for the damage which will be caused by this project to my property, irrespective of the precautions that might be considered to adhere to.

The "no comment" as to why no authority consulted me when I purchased my property about the servitiet is not acceptable, as no person would have wanted to purchase a property where a national road would be build.

Regretfully my answer is not in favor of this project. This is my final comment.

Kind regards,
Sonja
