Subject: Quarry six R573 / K139

Good day

I would like to attached my comments regarding the upgrading of Bavianspoortweg and Stormvoel street. By using Maroela and Lalapalm roads to frg to the quarry will creste lits if problems for us stayjng closeby, We already have constant problems with Maroela road because the municipality do not keep it in order its impossible to keep your viecle in order durjng winter orcsummer that riad is a disaster. With all the transporg expecting going in during your upgrading we forsee big problems for us and the community. Is there a way that they can upgrade Maroela road as well.

Regards
Marie Wessels
