**Subject:** RE: SANRAL R101 Section 8 Road Upgrade: Availability of the Draft Basic Assessment Report

Good morning Mr Mabunda ,

My name is Andre Opperman and I live on plot 46, Sussansvale, farm named Don Armaran. I would like to know the following please:

1. How many Ha of my farm will I lose due to the changes to the R101.
2. How much closer will the new R101 be , in meters, to my house compared to the current existing R101.
3. How will the blasting of the hill behind my house affect me.
4. How will I be compensated for the lost land, and how do you determine the value of the land, and when and whom will I have to negotiate with.
5. Will heavy vehicles be allowed to use the new road, and if so how much will the noise levels increase.
6. What happens to my livestock while the road is under construction, due to the fact that all the fences will be removed
7. Will the ESKOM power supply to my house be influenced in any way while the road construction is under way.
8. How will the entry and exit road onto my farm be affected or change.
9. How will rain water drainage from the new R101 be handled.
10. What happens to the excess material removed during the construction process of the new R101.

---

Friendly regards,  
Andre Opperman.
